Dear Muril:

I'm enclosing the request from the State of Utah for the Annual Report on the MiVida. I would assume the General Information is Section I is self explanatory. As to Section II, items would be answered as follows:

1. yes
2. 1,964 tons
3. None, inasmuch as any disturbance would have been only on previously disturbed surface area.
4. None
5. As shown in previous reports by Utah State.
6. As the operator, you would need to answer this.

For Section III, there should not have been any changes to require an updated surface facilities map nor should any monitoring results or other reports be needed.

I will forward a copy of this letter to Lowell Braxton for his information.

We send our best wishes for the holiday season.

Very truly yours,

MINERALS WEST, INC.
